AESTHETICS

TREATMENT LIST

WELCOME

Hi I'm Stacy, the owner and founder of Stacy Fox Laser & Aesthetics.

In 2020 I enrolled on my very first aesthetics course for lip fillers, completely unaware of the passion it would ignite in me and the desire to help others feel better about themselves.

I have gained a wealth of knowledge, experience and qualifications, with over 40 training courses under my belt.

I feel truly humbled by the many friendships that have been forged from having such an amazing client base.

I offer an exclusive range of industry leading non-surgical cosmetic treatments. I take great pride in being able to offer these innovative and affordable alternatives to cosmetic surgery and it is my privilege to be able to enhance your confidence through my knowledge and skills.

PLASMA FIBROBLAST LIFT & TIGHTEN

Plasma Fibroblast is a non-surgical skin tightening treatment designed to shrink, tighten and reduce the volume of excess skin by targeting fibroblasts.

The Plasma pen releases a targeted current just above the skin, the hot current creates micro-injuries on the skin's top layer, and this process breaks down proteins in the skin, encourages tissue regeneration, stimulates fibroblast activity and causes tissue contraction (tightening).

LASER THREAD VEIN REMOVAL

Using Laser technology to heat up
and destroy the protein in the wall
of the thread/spider vein.

As a result the veins will gradually,
and safely, disappear after treatment.

Can be carried out anywhere
among the face or body.

Single from | £50

CARBON FACIAL

Destroy active acne and rejuvenate your skin. The Carbon Laser Facial Peel is highly beneficial for people with oily skin, blackheads, enlarged pores, dull skin and acne on the face or body.

It is also an excellent way to exfoliate and refresh your skin, providing an instant glow and leaving skin feeling softer, smoother and firmer with fine lines & wrinkles reduced.

Single from | £60 | Course of 4 | £180

CO² FRACTIONAL LASER

CO² laser resurfacing is a cosmetic procedure that uses a carbon dioxide laser to remove the outer layers of damaged skin, effectively addressing wrinkles, acne scars, pigmentation and promoting collagen production, leading to a rejuvenated complexion.

HAIR REDUCTION

The light from the handle is attracted to melanin, the pigment in hair and skin, when absorbed by the melanin the IPL creates heat and the heat destroys the hair follicle resulting in its inability to regrow.

With 95% permanent hair reduction with as little as 6 sessions. Hair grows back thinner and softer with each session making it less and less noticeable.
